2. Generated test case of the User Story

Generated Test Cases

30 test case(s) generated • Model: openai/gpt-oss-120b • Input tokens: 593 • Output tokens: 2948 • Cost: \$0.002679 (est.)

Test Case ID	Title	Category	Expected Result
TC-001	Allocate equal starting chips to all players at match start	Positive	Each of the 4 players receives exactly 1000 chips displayed in their balance
TC-002	Valid declaration transfers correct chips from losers to winner	Positive	Player A receives 70 chips (70 from each loser if applicable) and losers' balances decrease accordingly
TC-003	Auto-start next deal after a deal ends	Positive	The next deal starts automatically without manual intervention
TC-004	Match ends after predefined number of deals	Positive	After second deal, the match stops and overall winner is displayed
TC-	Highest chip balance		Player B is declared overall
